## Garantie moulinet Hardy

Tous les moulinets Hardy Ultralite MTX bénéficient d'une garantie limitée à 5 ans selon les termes présentés ci-dessous.

- La garantie fonctionne à partir du moment où le moulinet présente un défaut de fonctionnement ou un défaut au niveau de sa conception. La garantie est valable pendant 5 ans à partir de la date à laquelle vous avez acheté votre moulinet.
- Cette garantie s'ajoute à vos droits statutaires par rapport aux produits défectueux.
- Il est très important de bien enregistrer votre moulinet sur notre site Internet [www.hardyfishing.com](http://www.hardyfishing.com) dans un délai maximum de 60 jours après votre date d'achat de manière à faciliter ensuite le processus de réclamation.
- Cette garantie ne couvre pas les dommages causés en raison d'une mauvaise utilisation du moulinet, d'une négligence, d'un défaut d'entretien. Cette garantie ne couvre pas non plus l'usure normale du moulinet.
- Si vous souhaitez avoir d'autres détails plus complets sur cette garantie ainsi que sur les démarches à suivre en cas de réclamations, merci de consulter notre site Internet [www.hardyfishing.com](http://www.hardyfishing.com) com ou le service client situé à proximité de chez vous.

Sachez que nous sommes aussi en mesure de vous proposer une extension de garantie au cas où votre moulinet aurait un souci à l'issu des 5 années qui ont suivi la date à laquelle vous l'avez acheté. Dans ce cas, merci de contacter le service client (détaillant) situé à proximité de chez vous pour avoir plus de détails.

## Care and Maintenance

The same method of cleaning is valid for all reels in the freshwater Ultralite MTX reel range.

- 1— Remove line and backing.
- 2— Remove the spool.
- 3— Flush away dirt by placing the spool and frame under a stream of warm water.
- 4— Dry carefully with a lint free cloth.
- 5— Depending on your reel size, lubricate with a good quality oil at the points illustrated in the diagrams.
- 6— Always ensure the spindle is adequately greased.
- 7— Always turn the disc-drag to the minimum setting when not in use, this avoids compression of the system.
- 8— Always ensure the reel and line are dry before storing in the case or pouch.

## Change your reel from left to right hand wind

All Hardy Ultralite MTX reels are designed to work in right or left hand wind. When you receive your reel, it will be set for left hand wind.

### To convert your reel to right hand wind

- 1— Remove the spool out of the frame by turning the captive spool securing nut anti-clockwise until it disengages from the spindle thread. Note, the nut will stay attached to the spool.
- 2— Pick up the spool so that the clutch securing nut is visible.
- 3— Using your thumb & forefinger, remove the clutch securing nut by turning anti clockwise.
- 4— The one way clutch holder is now visible, remove this from the drum by rotating the drum 180 degrees. Place your palm underneath the clutch as you tilt the spool in order to catch the clutch.
- 5— Turn the clutch holder through 180 degrees and repalce it back in the spool housing. The end of the clutch unit with the stainless steel showing should now be upright and visible.

- 6— Using your thumb & forefinger, replace the clutch securing nut by turning clockwise.
- 7— Replace the spool into the frame – your reel should now be right hand wind.

### Clutch

Steel visible: Left hand wind

## Ultralite MTX disc drag

The disc drag mechanism can be adjusted by simply turning the regulator button on the face of the frame — clockwise to increase the drag, anti-clockwise to decrease. When the reel is not in use, the check should be turned to the minimum setting.
